📍 New York

SUMMARY

Healthcare worker turned software engineer with a passion for web application development. Currently, a Javascript and React focused developer with experience doing single product freelance work and developing complex solo/team projects. An avid learner and problem solver with these skills being developed in an emergency healthcare environment. Able to work independently of remote locations with dedication to getting tasks done on time and within current deadlines.

EXPERIENCE

Emergency Room Technician

Vassar Brothers Medical Center

📅 2015 - Present 📍 Poughkeepsie, New York

- Used problem-solving skills to manage treatment for critically ill patients
- Worked in a team based environment to navigate a busy ER environment
- Kept up an active learning schedule to keep up with current medical practices

Freelance Web Developer

Freelancer

📅 Present 📍 New York

- Increased local business reach with their own custom websites
- Enhanced my problem-solving skills with learning new technologies to tackle production issues
- Researched new methods and ways to solve issues during the production process
- Used clean code to keep code readable for future software engineers
